

# Platform Feature | Duplicate Creative

# Platform Feature | Duplicate Creative

“Duplicate creative” feature is a useful time saver if:

- You want to create a different social platform variation of an existing creative (e.g. have an Instagram photo post that you want to convert into a Facebook photo post using same assets)
- If you have subtle creative or tracking variations you need to make. Duplicate the creative and then make any edits to caption or asset uploads.

### Duplicate Creative

Duplicate creative "Fitbit 1" in campaign "Fitbit"

**Save to Campaign:**  
63271/Fitbit (Team Agency Training @ SDA)

**Duplicate With:**  
 3rd-Party Trackers

**Single Copy**  
Create a single copy of the creative in the selected campaign. You will be able to update all Creative data in the next step. [Duplicate](#)

**Multiple Copies**  
Create multiple copies of the creative in the selected campaign. You will not be able to change the Creative type but can update trackers and some other data.

**Number of Copies:**  [Duplicate](#)

[Cancel](#)
